WGCPARIS2015

WORLD GAS CONFERENCE

"GROWING TOGETHER TOWARDS A FRIENDLY PLANET"

26th World Gas Conference | 1-5 June 2015 | Paris, France

Our industry is changing and with change, come opportunities

Our industry is changing, and the impact of falling oil prices and the supply-demand imbalance will continue to work their way through the global economy.

Natural gas has proven to be a resilient, affordable and accessible resource. It is the cleanest fossil fuel. The 26th World Gas Conference, which takes place in Paris this June presents us with a unique opportunity to reinforce the position of our sector as an enabler of fundamental economic and social growth around the world.

Be at the forefront of these dynamic market changes.

WORLD RENOWNED SPEAKERS

Over the years, delegates are loyal to the World Gas Conference and choose this event because of the high quality speakers and the topical programme which it presents. It is a culmination of 3 years of specialist studies and research by some 1,000 industry specialists across more than 90 countries, covering the whole gas value chain.

Some 500 world-class industry speakers are carefully chosen to present more than 70 sessions featuring topics of utmost importance to the industry, assessing current progress and identifying new trends.

The latest speakers to confirm their participation at WGCPARIS2015 include CEOs from these leading organisations: **Total SA, GDF SUEZ, QatarGas, Royal Dutch Shell, RasGas, Chevron, BP, KOGAS** and **Exxon Mobil**.

Topics will cover all areas of the industry, as well as drill down into more detail for specific areas of interest. Explore the programme overview [here](#)
