# THE 5th ST. PETERSBURG INTERNATIONAL GAS FORUM SPIGF-2015

St. Petersburg International  
**Gas Forum**

## DEAR FRIENDS!

**LET ME GREET THE PARTICIPANTS  
OF THE 5th ST. PETERSBURG  
INTERNATIONAL GAS FORUM  
ON BEHALF OF THE EXPOFORUM-  
INTERNATIONAL COMPANY!**

THE GAS FORUM IS THE LEADING VENUE  
TO DISCUSS TOPICAL ISSUES OF THE INDUSTRY.  
DURING THE FORUM INDUSTRY LEADERS  
MAKE THEIR DECISIONS THAT PROVIDE DIRECT  
IMPACT ON FORMATION OF THE GLOBAL GAS  
MARKET.

The level of the event depends not only on statuses of guests, but on the business programme quality, too. This year we are going to hold over 40 various conferences and round table discussions during SPIGF. Traditionally, the participants will arrive for the 4th International Congress of Oil and Gas Industry Professionals, where global tendencies and the state policy within the industry will be discussed, the role of the liquefied natural gas and its share in the future global energy balance will be assessed, and the resource base for largest gas projects and key aspects of their realisation will be considered.

One of the advantages of the Forum is complementarity of the convention and the exhibition programmes. Matters discussed during business events will be represented in the exhibition covering over 25 thous. sq. m, uniting three largest projects of the industry: the International Specialised Exhibition "InGAS Stream – Innovations in Gas Industry", the International Specialised Exhibition "Gas Engine Fuel" and the International Exhibition of Natural Gas Industry and Technologies for Gas Facility "ROS-GAZ-EXPO".

The Forum is obviously a success. In 2014 the event was attended by three times more specialists than in 2013: over 7 thousand persons from 21 countries arrived to take part in the Forum. This year we expect the event to become even more popular. Key participants have already been approved, and the event is supported by high-level state officials: thus, the Ministry of Industry and Trade of the Russian Federation intends to take part in the exhibition and congress events of the Forum in 2015.

**YOU AND YOUR COMPANY ARE WELCOME TO ATTEND  
THE 5th ST. PETERSBURG INTERNATIONAL GAS FORUM THAT WILL TAKE  
PLACE IN EXPOFORUM, THE MOST ADVANCED CONVENTION  
AND EXHIBITION VENUE IN THE EASTERN EUROPE.**

**SEE YOU THERE!**

Best regards,  
Sergey Voronkov

CEO  
of ExpoForum-International

The newly constructed venue of EXPOFORUM testifies to Russia's high openness for international dialogue, cooperation and sharing of best practices. Those were the words of the Chairman of the Management Committee of Gazprom Alexey Miller's welcoming address at EXPOFORUM's opening ceremony. He pointed out that the new Convention and Exhibition Centre will become Russia's foreign relations development venue that will give an impetus for the social and economic growth of St. Petersburg.

Having thanked Alexey Miller for his gift to the city, the Governor of St. Petersburg Georgy Poltavchenko said that this modern venue will be conducive to attracting an even greater number of visitors from around the world as well as to the involvement of business tourism: "The venue will host congresses and forums, exhibitions and festivals. All this will foster St. Petersburg's economics".

## THE OPENING OF THE 4th ST. PETERSBURG INTERNATIONAL GAS FORUM

AS PART OF THE FORUM'S PROGRAMME, THE OPENING CEREMONY GAVE A START TO THE BLUE CORRIDOR VEHICLE RALLY.

IT FEATURED A CONVOY OF FACTORY-MADE NATURAL GAS VEHICLES THAT RUN A TOTAL DISTANCE OF 3 000 KILOMETERS THROUGH 15 COUNTRIES.

THE VEHICLE RALLY, WHICH MARKED AN OFFICIAL INAUGURATION OF THE 4th ST. PETERSBURG INTERNATIONAL GAS FORUM, WAS STARTED BY THE CHAIRMAN OF THE MANAGEMENT COMMITTEE OF GAZPROM ALEXEY MILLER.

According to him, today, gas engine fuel is one of the top industrial priorities of both Russia and Europe.

"The rally's goal is to popularize natural gas as the most environmentally safe and cost efficient engine fuel, as well as to encourage the domestic mass production of natural gas-driven automobiles to get it up and running," – said the A. Miller.

Senior Vice President of E.ON Global Commodities SE Uwe Fip shared this view pointing out that the rally that has already been run for 8 years sweeping through practically all European countries, manifests that one can ride an automobile without polluting environment.

"I am confident that the rally "St. Petersburg – Verona" will start a new era for the natural gas," – he said in his speech.

“New Technologies in the Gas Sector”

One of the principal advantages of the Forum is that the congress scenario has been supplemented by the exhibition program. Together they have represented the real situation in the gas industry. Participants could use all the opportunities offered by the sponsors to the maximum effect and were able to announce themselves. Members of the Association have established business relations with Argentinean colleagues, have negotiated with potential buyers, represented their innovative projects to the delegations headed by A. Miller, Chairman of the Management Committee of Gazprom. In my opinion, the Forum can be highly appreciated.

**ALEXEY TOPILIN**
