Green Building Energy Saving

UWT China 2015

Shanghai International Urban & Building Water and Wastewater Trade Fair

23-25th, September 2015

Shanghai New International Expo Center

Post-Show Report

Green Building Energy Saving

The leading Urban water industry event

Leading high-end focus

UWT China 2015 promotes the development of "Green Energy Saving"

The unique event that focuses on urban water industry —— UWT2015 closed on 25th September, 2015 at the Shanghai New International Expo Center! UWT2015 has been held for four years, and the success of this year further strengthens its leading status in the urban water industry.

UWT2015 has a scale of nearly 12,000 square meters. The exhibition is co-sponsored by National Engineering Research Center (south) of Urban Water Resources, China Construction Metal Structure Association Water Equipment Branch, China Architectural Society Water Supply and Wastewater Branch, China Construction Metal Structure Association Fountain Water Committee, China Promotion of International Trade Council Shanghai Putong Branch, National Real Estate Club of Chief Engineer (CSES) and Shanghai Zhanye Exhibition Co., Ltd. We also receive strong supports from relevant academies, associations, design institutes and associated media.

UWT2015 combines new technology and products of water treatment & drainage all over the world. It offers a high-end platform of display and communication, serves in the implementation of the state council [2015] no. 1 files "Green Building Action Plan", and also advances the application of water and energy-saving products in the urban construction.

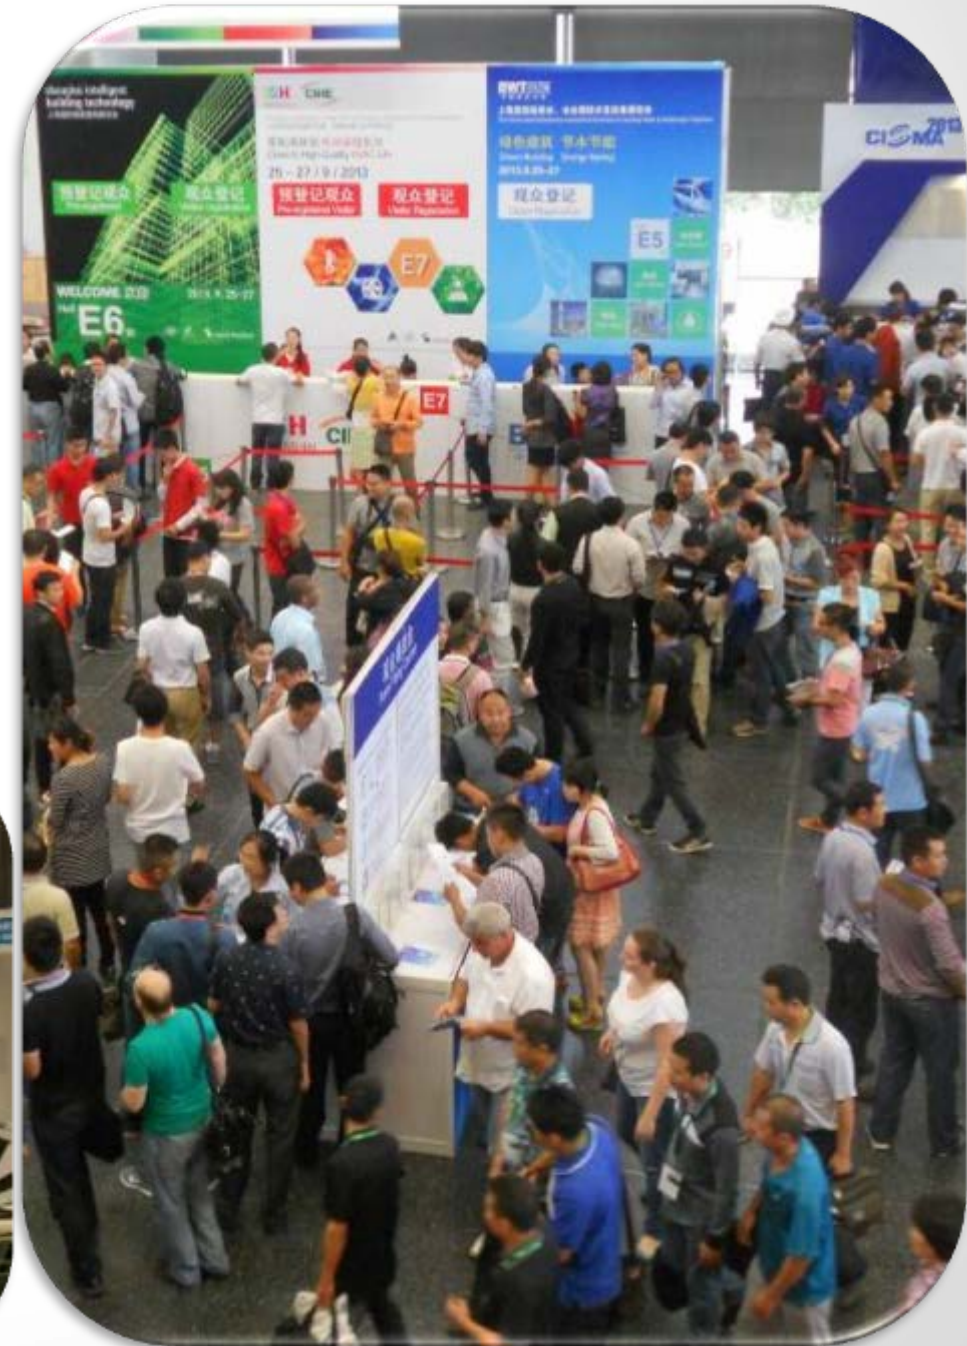

Exhibition Development

The International high-end Trade Fair for building water and wastewater,
Steadily grows yearly!
Dedicated, professional, highly acclaimed!

Exhibition Development

- ✚--- The scale of exhibition increased by 8%
- ✚--- The number of exhibitors increased by 16%
- ✚--- The number of visitors increased by 11%
- ✚--- The number of overseas visitors increased by 14%

Exhibitors information

UWT2015 attracted 324 exhibitors from all over the world. UWT2015 concentrates on displaying new products and technologies of water supply, drainage, hot water, fire fighting, water treatment systems, supplying comprehensive solution of urban building water supply and drainage, which established a one-stop shop platform of water supply and drainage.

During this exhibition, Secondary water supply, building integrated solar energy, thin-walled stainless steel, rainwater collection and utilization, floor drainage and sewerage commission device appeal to the most insiders within the industry.

- 85% of the exhibitors are satisfied with the exhibition;
- 93% of the exhibitors have achieved their goal;
- 81% of the exhibitors will participate next time;
- 90% of the exhibitors speak highly of visitors.

■UWT China 2015 was a professional trade show in aspect of water treatment, which provided a thoughtful service to exhibitors and visitors. We found several potential clients during the exhibition. This exhibition offered us a great platform to directly display the products of our company. I hope that UWT committee can achieve a better future in the next editions

■-----Liu Shihong / Project Manager of KSB Shanghai Pump Co.,Ltd.

The speech of each conference is professional and representative. We learnt a lot from related conferences, and we also met the distributors from Fuzhou and Shanghai. However, I hope that the organizer can invite more high quality of visitors from water and tap-water Company.

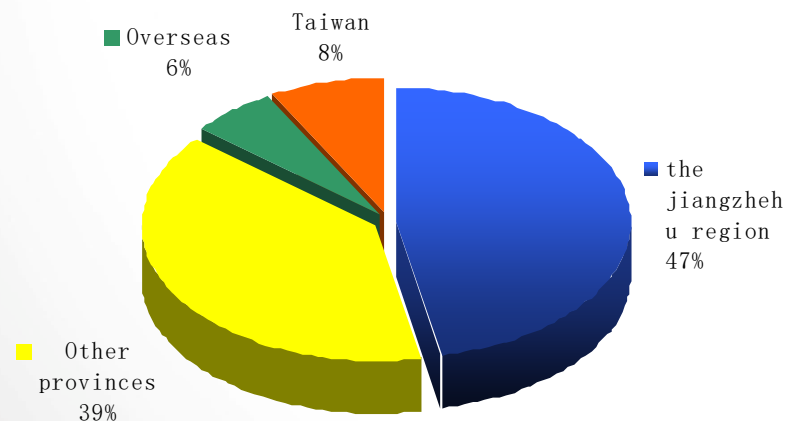

■--- Chen Shanshan / Marketing manager of SWAN Analytical Instruments

The exhibition is good, because there are many audiences and some are very interested in Vds, they even come to our booth after the forum and ask for more information. We also found several potential clients during the exhibition. However, it would be much better if the organizer could switch on the AC and the exhibition hall could be closer to the main entrance (N1-N3).

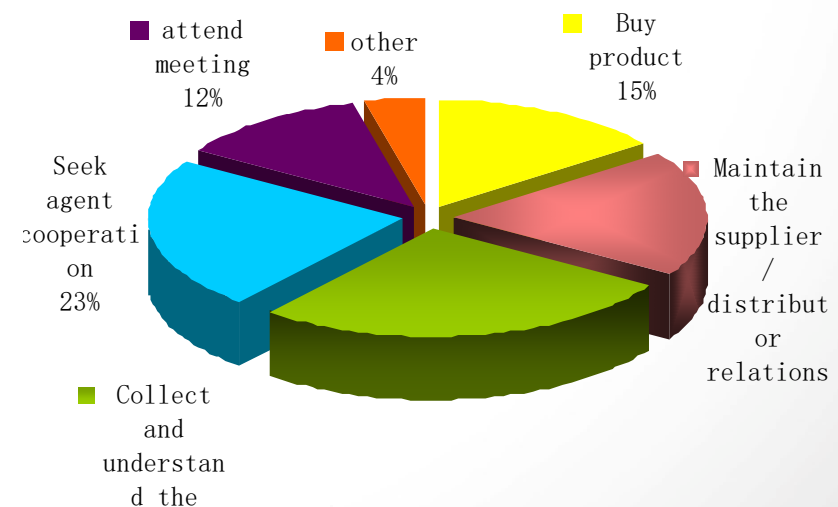

---- Lothar Sysk/ Germany VDS Disaster Prevention Co.,Ltd.

- Over the three-day period , there were **18,246** trade visitors from **12** countries and regions visiting the expo, in which there were **2,145** buyers, including **437** buyers from outside the China.
- Top ten countries and regions ranked by the number of international visitors:
Thailand, India, Germany, Chile, Hong Kong, Russia, Korea, India, Sri Lanka and Singapore.

**Mr. Liu Shihong,
Project Manager of
KSB Shanghai Pump
Co.,Ltd**

UWT China 2015 was a professional trade show in aspect of water treatment, which provided a thoughtful service to exhibitors and visitors. This exhibition offered us a great platform to directly display the products of our company. I hope that UWT committee can achieve a better future in the next editions

**Mr. Shi Guoxiong,
Vice-
President/Senior
Chief Architect of
Shanghai
Architectural Design
Institute**

The overall impression of UWT China 2015 was that UWT committee added several highlights during the exhibition, which included concurrent events, technical conferences and etc. I believed that the related conferences can be beneficial for us to achieve a better understanding of development tendency within the industry. We are really looking forward to participating in the next edition.

**Mr. Lu Xinwei,
Senior Engineer of
Guangdong Building
Material Institute**

UWT China 2015 was closed with a huge success like always. No matter the service of organizer, the scale or concurrent events, the Expo was organized well in every aspect. I also found my interested product, and participated in the concurrent conferences.

Concurrent Events

✚2015 World Plumbing Council Annual Meeting (2015 International Building Water Supply & Drainage Forum)

The theme of forum was “Energy Conservation, Emission Reduction, Green Environment” this year. Attendees discussed the development within the industry, which included world plumbing council members, shanghai water supply industry association members, CCDI group members, related company representatives and etc.

Main Experts attending the meeting were:

Mr. Henry, Stuart Irwin, secretary-general of World Plumbing Council;
Mr. Shayne La Combre, vice president of World Plumbing Council;
Mr. Alberto Fossa, member of World Plumbing Council;
Mr. Kelvin Wellman, executive member of World Plumbing Council;
Mr. Le, Linsheng, chairman of shanghai water supply industry association;
Mr. Jiang Wenyuan, general consultant of CCDI Group;
Mr. Zhang Songming, CQO of Youfa Steel Pipe Group;
Mr. Shen Yuesheng, marketing manager of shanghai doochpump Co., Ltd.

Meanwhile, this forum can be beneficial for attendees to achieve a better understanding of leading concepts and information about healthy life and environment. In addition, it also establishes a professional platform for experts to analyze the updated policies and exchange their thoughts.

Concurrent Events

✦ Technology Development Conference of Urban Secondary Water Supply

The Urban Secondary Water Supply Technology Development Conference has been successfully held in the Shanghai New International Expo Center on 23th September, 2015. The theme of conference is to focus on urban secondary water supply, in order to ensure the quality of water supply.

Speakers:

Mr. Yin Rongqiang, Deputy Director/Senior Engineer of Shanghai Water Supply Management Department;

Mr. Lv Hui, Senior Design Director of CCDI Group;

Ms. Xin Yi, Product Manager of SWAN Analytical China Co.,Ltd;

Mr.Jie Daorong, Deputy Manager of Shanghai Water Group Co.,Ltd;

Mr. Anton Rienmuller, Technical Support of VAG Water Systems (Taicang) Co.,Ltd;

Mr.Zhu Yinchun, Assistant Sales Development Manager of GRUNDFOS Pumps (Shanghai) Co., Ltd;

Mr.Yu Dahai, Deputy chief/Senior Engineer of Shanghai Water Supply Management Department

Main Topics:

Application of digital intergrated full frequency control water supply equipment for building water-supply design;

Apply of Onine Water Quality Instrument (Ensure the Quality and Safety of Water);

VAG Pressure Management;

Reformation of secondary water supply facilities in Shanghai.

Concurrent Conferences

Smart Water Summit

Wisdom Water Summit has been held in the Shanghai New International Expo Center on 24th September, 2015. The theme of conference is the interpretation of water information project in shanghai.

Speakers:

Mr. Gu Yuliang, General Manager of National Engineering Research Center for Urban Water Resource;
Mr. Huang Shili, Director of Shanghai Water Information Center;
Mr. Lei Jingfeng, Sales Section Manager of Schneider Electric SA Co.,Ltd;
Mrs. Li Jie, Sales Director of Chengdou Zhijie Pipe Fittings Co.,Ltd;
Mr.Zhang Xin, General Manager of National Branch Engineering Research Center for Urban Water Resource.

Main Topics:

Shanghai Water Ocean Information Project;
Solution & Case study of Schneider Electric Wisdom Water Network;
Promotion & Application of metal plastic;
Secondary water supply Supervision System of Residential Housing.

■Sponge City Construction Seminar

Sponge City Construction Seminar has been held in the Shanghai New International Expo Center on 24th September, 2015. The theme of conference is the construction of sponge city and wisdom drainage.

Speakers:

Mr. Zhou Xinyu, Deputy General Manager of National Engineering Research Center for Urban Water Resource;

Mr. Zhou yu, Chief Director of Shanghai Dewatering Management Department;

Mr. Li Tian, Professor of Tongji Environmental University;

Mr. Chen Shr-Je, Vice Executive General Manager of Taolin Digital Surveying Engineering Co., Ltd;

Mr. Zhang Xianzhong, Party Branch Secretary/Highly Specialized Engineer of Shanghai Urban Construction Design & Research Institute.

Main Topics:

The Construction of Sponge City & Wisdom Drainage;

Simulation Study of exploiting technology---Improving the ability of stagnant water drainage in the built-up area in Shanghai;

Building Intelligent Monitoring in Sponge City---The Effectiveness of Govern Water Conservancy;

Rainwater Storage Processing Technology and its application.

✚ The 2015 Building Fire Protection (BFP) Seminar

The 2015 Building Fire Protection (BFP) Seminar has been held in the Shanghai New International Expo Center on 23th September, 2015. The theme of conference is that "safety will become the top priority in the future city".

Speakers:

Dr.C.J.Chen, Chinese Disaster Mitigation & Consultants Co.,Ltd;

Mr. Lothar Sysk, Germany VDS Disaster Prevention Co.,Ltd;

Mr. Michael Zheng, Technical Director of VTI Fire Fighting Equipment (shanghai) Co.,Ltd;

Mr. Sun Bin, Regional Manager of Henan High Power Special Electromechanical Manufacture Co.,Ltd;

Mr. Yao Chenglong, Technical Support Specialist of Danfoss Semco (Tianjin) Co.,Ltd.

Main Topics:

Introduction of sophisticated calculation models on analysis surge system and maintenance operations information integration system ;

How to examine fire fighting equipments in the perspective of EU countries;

Intelligent gas fire extinguishing system for data processing centre and the safe application of silencer;

High pressure water mist system---A revolution in building fire prevention code; Opportunities and Challenges—Development trend of high pressure water mist.

■ The International Thin-wall Stainless Steel Pipeline Industry Conference

The International Thin-wall Stainless Steel Pipeline Industry Conference has been held in the Shanghai New International Expo Center on 24th September, 2015. The conference is sponsored by China Construction Metal Structure Association (water supply & drainage) and Shanghai Zhanye Exhibition Co.,Ltd. Meanwhile, it is co-organized by Shanghai Water Supply Industry Association and China Real Estate Technology Association.

Speakers:

Mr. Ying Zaiyang, Deputy Secretary-General of Shanghai Decoration Industry Association;

Mr. Zhu Yuanjie, General Manager of Shenzhen Yachang Pipeline Industry Co.,Ltd;

Mr. Liu Hui, Marketing Director of Zhejiang Zhengkang Industry Co.,Ltd;

Mr. Wang Xueliang, Electromechanical Chief Engineer of East China Architectural Design & Research Institute Co.,Ltd.

Main Topics:

Discussion of strategic cooperation between stainless steel tube enterprises and Shanghai decoration company ;

Application of thin-wall stainless steel pipeline in the interior decoration market;

The opportunity of thin-wall stainless steel pipeline in the Drinking Water Industry;

Application of thin-wall stainless steel pipeline in the construction water supply industry.

✦The Shanghai Solar Building Integration (Trend of Solar Thermal Industry) Seminar

The Shanghai Solar Building Integration (Trend of Solar Thermal Industry) Seminar has been held in the Shanghai New International Expo Center on 24th September, 2015. The seminar is sponsored by Shanghai Solar Energy Society, and co-organized by Shanghai Zhanye Exhibition Co.,Ltd.

Speakers:

Mr. Wang Anshi, Secretary-General of Shanghai Solar Energy Association;

Mrs. Wang Junruo, Section Chief of Shanghai Construction Management Industry Department;

Mrs. Liu Xiaoyan, Chief Engineer of Hunan Sanxiang Energy Equipment Engineering Co.,Ltd;

Mrs. Tang Yumin, General Manager of Huzhou Persimmon Electrical Equipment Co.,Ltd;

Main Topics:

Application policies and technical standards of Shanghai Renewable Energy Building;

Application of Solar Water Heating System in the high-rise residential;

Application of Solar Heat Pump in Architecture;

Type of Solar Water Heating System in Concentrated dispersion and its improvement.
