OGS 2017

24-25 APRIL 2017
DUBAI

The **11th International Oil & Gas Security 2017** will have the participation of major national oil and gas companies operating in different regions of the globe. Key industry decision-makers will be addressing the main Cyber and Physical security challenges currently being faced by the oil and gas industries at a global scale.

The new range of security vulnerabilities that oil and gas companies are facing across the world keep changing on a constant basis, normally driven by the actions of state and non-state actors in the form of terrorism. Recent political developments, the lack of coordinated regional response mechanisms across the globe and the rising complexity of cyber threats are some of the pressing issues that are currently affecting the operational development of multinationals in Latin America, Africa, Middle East, Asia and Europe.

Through the combination of regional risk mapping issues and technical presentations **11th International OGS 2017** will address emerging pressing issues such as the increasing role of big data in insider threat counteraction, the rise of cyber-attacks to the oil shipping industry or the new security trends in infrastructure protection.

THE OGS EXPERIENCE

24-25 APRIL 2017 11TH INTERNATIONAL
DUBAI OGS
OIL & GAS SECURITY
CONFERENCE FORUM MEETING

Following the experience from 10 previous oil gas security events in the past four years, IRN brought the industry under one roof in the 2016 edition where key security and risk management trends were discussed and addressed by major NOCs, large security contractors and industry experts. Attendees were able to access valuable output from key decision makers and industry experts

International OGS Summits are considered by the energy sector as a consolidated and valuable tool used by industry leaders to spot key security trends and the most optimal ways to tackle them.

Thank you for your support towards the successful hosting of the summit in London. The planning and execution this time around were fantastic

- Broron Oil & Gas Ltd

The Summit provided an ideal platform for a wide spectrum of informative briefings and discussions

- Securewest International

OUR OIL & GAS SECURITY EVENTS

- Oil & Gas Security 2012 Summit, 10-11 May 2012, London, UK
- 2nd Oil & Gas Security 2013 Summit, 12-13 June 2013, London, UK
- 3rd Oil & Gas Security 2014 Summit, 4-5 March 2014, Dubai, UAE
- Central Asia and Caspian Oil & Gas Security Forum 2014, 8-9 April 2014, Baku, Azerbaijan
- West Africa Oil & Gas Security 2014 Summit, 18-19 June 2014, Lagos, Nigeria
- 2nd Central Asia and Caspian Oil & Gas Security 2015 Forum, 3-4 March 2015, Almaty, Kazakhstan
- Latin America and Caribbean Oil & Gas Security 2015 Forum, 17-18 March 2015, Bogota, Colombia
- 4th Gulf and Middle East Oil & Gas Security 2015 Summit, 18-19 May 2015, Dubai UAE
- 2nd West Africa Oil & Gas Security 2015 Summit, 10-11 June 2015, Lagos, Nigeria
- International OGS Conference 2016, 11-12 May 2016, London, UK

REGIONAL
EVENTS

180+
SPEAKERS

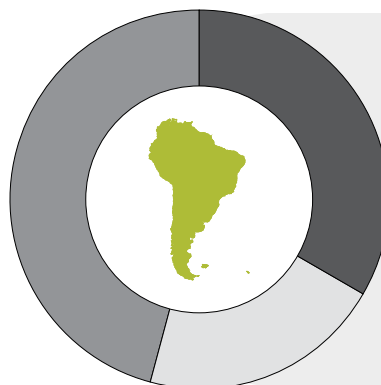

Following 5 years of global and regional events in Africa, Middle East, Europe, and Latin America we are once again bringing together our expertise and network of contacts with the goal of addressing the key security threats in the energy industry.

AFRICA

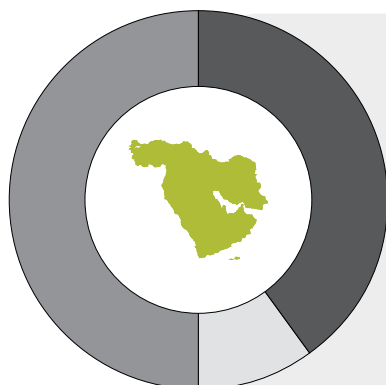

- **Hosted in:** Kenya, Nigeria and South Africa
- **Addressing:** Emerging Threats, Pipeline Security and Integrity, Maritime Crime, Risk Management
- **Companies present:** Hunt Oil, Subsea 7, Shell, Nepal Oil & Gas Services, GE Global and more

LATIN AMERICA

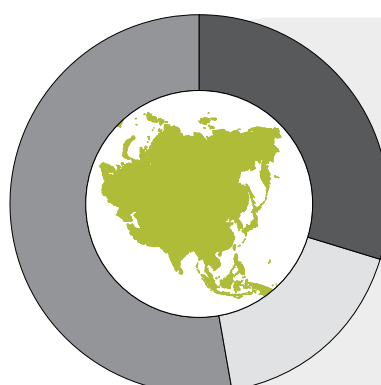

- **Hosted in:** Colombia
- **Addressing:** Terrorism, Kidnap, Cyber Security, Disaster Management, Crisis Management
- **Companies present:** Schlumberger, Tecpetrol, Plupetrol, Sinopec, Thales and more

MIDDLE EAST

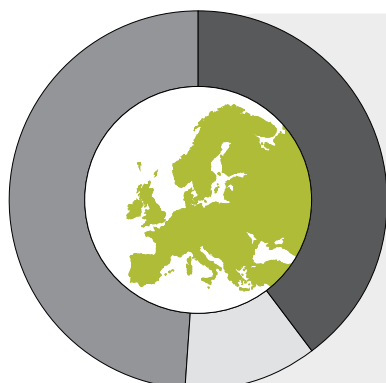

- **Hosted in:** UAE & Turkey
- **Addressing:** Mass Notification, ME Security Dynamics, Pipeline and Cyber Attacks, Multi Response Agency Incident
- **Companies Present:** Kuwait Oil, Pico International, ADCO, Baker Huges, Transocean and more

ASIA

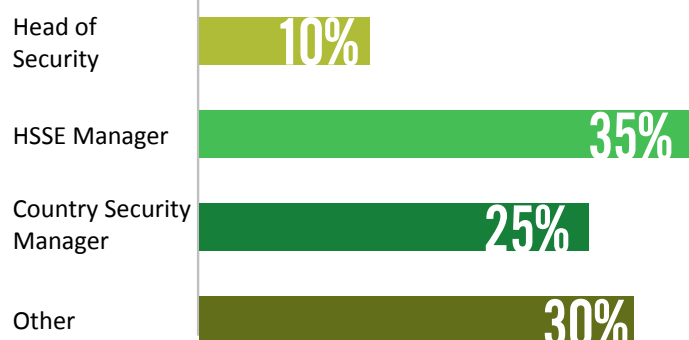

- **Hosted in:** Kazakhstan and Azerbaijan
- **Addressing:** Community Engagement Challenges, Oil Spills, Oil & Gas Infrastructure Security, Internal Investigations
- **Key companies:** Maersk Oil, North Caspian Operating, MOL, Socar, BP and more

EUROPE

- **Hosted in:** UK
- **Addressing:** Energy Resources Threats, Optimising Risk Assessment Strategies, Anti-piracy, Maritime Security
- **Companies Present:** OMV, GDF Suez, TAQA, Transgen, TOTAL and more

24-25 APRIL 2017 ^{11TH INTERNATIONAL}
DUBAI **OGS**
OIL & GAS SECURITY
CONFERENCE • EXHIBITION • MEETING

08.30	Registration and Coffee	
09.20	Opening Comments from IRN	
09.30	Opening Comments from the Chairman	
09.40	Keynote presentation: Global Geostrategic Outlook: How recent political and economic developments will affect security in the energy industry? <ul style="list-style-type: none"> How security budgets may be affected by an oil-cuts deal between Russia and the OPEC? The implications of the recent changes in the political landscape in the oil and gas security industry: Brexit, US elections, peace deal in Colombia. Analysing the effects of the rising tensions between Saudi Arabia and Iran towards the security industry in the Middle East 	
10.10	Middle East - Risk Mapping Session <ul style="list-style-type: none"> Assessing risks to the geopolitical landscape in the Middle East Regional security analysis: Situation after the defeat of the Islamic State Measures implemented by NOCs upon the increase of State-sponsored Cyberattacks What to expect from the new wave of social unrest in the Middle East? 	Latin America - Risk Mapping Session <ul style="list-style-type: none"> An assessment of the applications of Psychologic security in risk mitigation and behavioural detection in Latin America The growing role of Intermittent Positive Reinforcement within security How oil and gas companies in the region are taking advantage of Neuroscience and psychology at the time of developing intervention strategies <p>Jorge Luis Augusto Castro Zapata, Country Security Manager, Repsol</p>
10.40	Morning Networking Break <i>During the networking break, there will be an area dedicated to pre-arranged 15 minute meetings.</i>	BUSINESS MATCHING via  Demo Area Presentations: <i>During the break there will be a number of product demonstrations in the exhibition area, showcasing the latest in physical and Cyber security technology.</i> <ul style="list-style-type: none"> CCTV / Video Surveillance Demo Session Access Control / Biometrics Demo Session Perimeter Security Demo Session
11.40	Africa - Risk Mapping Session <ul style="list-style-type: none"> An overview of the new security threats affecting African countries Analysing the ethnic connotations of Piracy resurgence in Nigeria The need of a regional approach in tackling theft and robbery in the Gulf of Guinea From Boko Haram to al-Shabab: How are terrorist groups affecting operational security 	Central Asia - Risk Mapping Session <ul style="list-style-type: none"> How geopolitical interests are shaping security strategies in Central Asia The revitalization and diversification of energy trade patterns in Central Asia Tackling the lack of corporate cyber security awareness in Central Asia Pipeline security trends in Kazakhstan and Uzbekistan
12.10	Europe - Risk Mapping Session <ul style="list-style-type: none"> Enhancing cyber security parameters within oil and gas companies operating in Europe. The use of Big Data and Predictive analytics in tackling insider threats The UK Cyber Essentials Scheme: Protecting the oil and gas supply chain an example of Government and Industry collaboration How are companies dealing with HSE regulatory challenges? An update on the EU Offshore Safety Directive 	South Asia - Risk Mapping Session <ul style="list-style-type: none"> An analysis over the current threats affecting the oil and gas industries in South Asia Critical Infrastructure protection in India: From pipeline sabotage to threats over the sea. Cyber risk factors affecting pipeline operators in South Asia Challenges to Effective Security: Local Approach to Global Problem <p>Captain Tyagi, Deputy Security General Manager, GAIL - International Council for Industrial Security & Safety Management</p>

AGENDA DAY 1 **MONDAY** 24 APRIL 2017

24-25 APRIL 2017 11TH INTERNATIONAL
DUBAI **OGS**
OIL & GAS SECURITY
CONFERENCE • EXHIBITION • MEETINGS

12.40	Lunch Break	
	STREAM 1 CYBER SECURITY	STREAM 2 PHYSICAL SECURITY
13.40	Presentation: Insider-user threat detection in the oil and gas industry <ul style="list-style-type: none"> Analysing the growing role of Big Data within early warning protocols The core role of Behaviour Analytics in tackling insider threats The growing importance of AI-based algorithms in tackling insider threats in large oil and gas corporations 	Presentation and Panel Discussion: Towards an effective implementation of intelligence-sharing tools between the Gulf Countries <ul style="list-style-type: none"> The importance of threat intelligence: APTS and mainstream attacks An analysis over the current state of regional intelligence sharing mechanisms Towards the implementation of a C2 structure between GCC members <p>Nasser Al-Buhairi, Emergency and Response Coordinator, ENOC - Kuwait Petroleum Corporation</p>
14.10	Case Study: The increase of cyberattacks over the energy Shipping industry in the Middle East <ul style="list-style-type: none"> The raise of GPS Spoofing attacks in the Strait of Hormuz Assessing the effectiveness of BIMCO measures How to confront the raise of future cyber threats affecting the maritime industry 	Presentation: Analysing the implications of NIMBY in operational security <ul style="list-style-type: none"> Effective counteraction of local opposition groups Best practices and collaboration with local authorities Case study: Litigation success story <p>Claudio Moruzzi, Italy Advisor, Trans Adriatic Pipeline AG Italy</p>
14.40	Afternoon Networking Break <i>During the networking break, there will be an area dedicated to pre-arranged 15 minute meetings.</i>	BUSINESS MATCHING via  Demo Area Presentations: <i>During the break there will be a number of product demonstrations in the exhibition area, showcasing the latest in physical and Cyber security technology.</i> <ul style="list-style-type: none"> Cyber Security/ Threat Detection Demo Session Communications Demo Session UAV's Security Inspection Demo Session
	Strategic Security	Operational Security
15.10	HSE Managers Panel Discussion: Towards the implementation of more effective HSE management and reporting solutions <ul style="list-style-type: none"> How to maintain a consistent HSE strategy upon price volatility and market uncertainty Immediate reporting, a gap that needs to be tackled in the short term Analysing the most optimal reporting and reconciliation techniques Case study: Overview on the latest cost control techniques and resource optimisation plans 	Presentation: An update on HSE affecting operational procedures in offshore environments <ul style="list-style-type: none"> Europe's case: Operational implications of the 2015 EU Safety Offshore Directive Case Study: How data sharing can boost HSE operational standards: The Piper and Liner Loss of Container (PARLOC) in the North Sea Analysing the future HSE operational requirements in offshore environments
15.40	Presentation: Industry financial restrictions: How to present cyber security as a trusted partner as a valuable return on Investment? <ul style="list-style-type: none"> Cost control and process optimisation Key aspects to consider in Contract renegotiation Case Study Cybersecurity budget cuts: How to best deal with them? 	Presentation: The Strategic aspect of security in MENA <ul style="list-style-type: none"> Challenges being faced by oil companies working in HRZ (High Risk Zones). The nexus of Security vs Revenue Mitigation strategy specially in HRZ <p>Colonel Mateen Weath Khan, EMEA Regional Security Manager at</p>
16.10	Presentation/ Panel Discussion: The convergence of CSR and HSE in oil and gas strategies <ul style="list-style-type: none"> Lessons learned from insufficient security and containment measures Towards a better integration between HSE and CSR strategies within oil and gas companies <p>Sam Botros, GE Oil and Gas, MENAT Security and Crisis Management Operations</p>	Panel discussion: Crisis management: Analysing the readiness level of oil companies <ul style="list-style-type: none"> Towards a real-time identification of Major Accident Hazard (MAH) scenarios Implementing an effective communication strategy regarding risk mitigation procedures. How to strengthen crisis communication plans in offshore and onshore operations
16.40	Closing Comments from the Chairman	
16.45	Networking Reception	

AGENDA DAY 2 **TUESDAY** 25 APRIL 2017

24-25 APRIL 2017 11TH INTERNATIONAL
DUBAI **OGS**
OIL & GAS SECURITY
CONFERENCE • EXHIBITION • MEETING

08.30	Registration and Coffee	
09.30	Opening Comments from the Chairman	
	Cyber Security	Physical Security
09.40	Keynote presentation: IT and OT convergence within the oil and gas industry <ul style="list-style-type: none"> The contribution of IT and Operational Technology to risk mitigation Analysing connectivity risks: How to minimise OT platforms to industrial espionage and sabotage? Assessing the role of IoT and Big Data within the IT – OT convergence process 	Presentation: The application of military counter terrorism measures in the protection of critical infrastructure <ul style="list-style-type: none"> From Iraq to Angola: Analysing different Security Risk Assessment procedures used at a global scale Grasping the latest techniques in IED and explosive counteraction Case study: Offensive security approaches in critical infrastructure protection
10.10	Panel discussion: Discussing the cyber insurance gap in the Middle East <ul style="list-style-type: none"> Cyber security insurance as a key part in the adoption of strategic security initiatives Solutions to the increase in the theft of Intellectual property in the energy industry in the Middle East Analysing the increase on identity management insurance 	Case study: An assessment on the application of the latest probabilistic risk management models within energy physical security <ul style="list-style-type: none"> Counter terrorism probabilistic risk-based models Success story: The application of quantitative risk based analysis to counteract physical threats Integration of risk management probabilistic models in early warning protocols
10.40	Morning Networking Break <i>During the networking break, there will be an area dedicated to pre-arranged 15 minute meetings.</i>	BUSINESS MATCHING via  Demo Area Presentations: <i>During the break there will be a number of product demonstrations in the exhibition area, showcasing the latest in physical and Cyber security technology.</i> <ul style="list-style-type: none"> Blast Protection Risk / Crisis Management Demo Session Manned Guarding
	Technology Latest Trends	Physical Security
11.40	Presentation: The increasing role of UAV's in the enhancement of critical security standards <ul style="list-style-type: none"> Analysing the increasing number of drone applications: From spill detectors to security infringement spotters The need to implement a security communications network at the time of operating UAVs An overview of the annual savings that drone usage can provide regarding offshore and onshore inspections Tackling the current challenges faced by drone operators; Poor security, lack of scalability and lack of mobile connectivity 	Case Study: The hijacking of an oil rig <ul style="list-style-type: none"> Enhancement of prevention strategies: towards the avoidance of self-targeting behaviours Key negotiation strategies to consider at the time of dealing with an oil rig hijack
12.10	Presentation: Video Surveillance: Outlook, trends and the growing role of big data <ul style="list-style-type: none"> The increase of HD CCTV within the Oil and Gas industry at the time of disrupting potential threats Future trends: 4K resolution to become the next industry standard Analysing the implications in the current increase of partnerships between video surveillance suppliers and storage specialists The role of Big Data at the time of taking advantage of video surveillance content 	Presentation and Panel discussion: Early warning mechanisms currently available in the Gulf countries <ul style="list-style-type: none"> Intelligence sharing as a key tool to prevent and counteract physical security threats Future interagency cooperation plans Case Study: Learning from the current European early warning mechanism

12.40	Lunch Break	
13.40	Panel Discussion: Enhancement of the Unified Emergency Response Unit of the CGG <ul style="list-style-type: none"> The enhancement of the Command and Control Structure Next steps: The implementation of a fast reaction force Overcoming financial constraints 	
14.10	Presentation: Training and advancement of professionals <ul style="list-style-type: none"> Towards the implementation of an IT – OT convergence culture in the energy industry The Transition Training Fund: A joint Government – Industry success story in Scotland An update on Health and safety legislation in Dubai 	
14.40	Afternoon Networking Break <i>During the networking break, there will be an area dedicated to pre-arranged 15 minute meetings.</i>	BUSINESS MATCHING via  Commercial Workshop <i>Economic restrictions within the Oil and Gas industry have forced companies to increase their value propositions and diversify their services in order to better position themselves in tendering processes.</i> <i>This workshop will train you to market your company and services to win high value contracts in the oil and gas sector.</i> <ul style="list-style-type: none"> Understanding the open tendering process Expectations, timeline and regional/company variations
The New Era of Security		
15.10	Joint presentation The future of Command and Control in the energy industry <ul style="list-style-type: none"> Assessing the future crisis management frameworks Management of maritime and underwater security threats in offshore operations Case study: Analysing current responsiveness levels: Is your company ready for an attack? 	
15.40	Presentation An update on the technological advancements <ul style="list-style-type: none"> AI: The future of cybersecurity in the oil and gas industry Analysing the impact of fourth generation security devices in the cyber kill chain Case study: The increasing role of drones in risk prevention and HSE strategies 	
16.10	Open floor panel The future of asset integrity management <ul style="list-style-type: none"> Transparency and traceability as key components in risk management strategies Integration of OT and IT platforms as key strategic and operational requirement in energy security Lessons learned from past incidents and failures trending in offshore and onshore pipelines Budget optimisation: The increase in use of predictive maintenance software platforms 	
16.40	Closing Comments from the Chairman	
16.45	Thank you from IRN

AND HOW

NETWORKING THROUGH OUR MATCHING APP

Pre-schedule 15 minute meetings with other attendees to meet during the dedicated 1-hour breaks on Day 1 and Day 2.

Business matching will be done through an easy-to-use technology platform: Jublia combined with a personalised service to help maximise your networking opportunities.

We know that making business connections is one of the reasons why OGS is the go-to event within the oil gas security sector. This process will be made easier thanks to this new – and complimentary – service we are introducing.

YOU WILL BENEFIT GREATLY FROM BUSINESS MATCHING IF YOU WANT TO NETWORK AND:

- Forge lucrative partnerships and collaborations for business
- Find potential clients to buy your services and products
- Benchmark providers for a specific project
- Broaden your personal network to advance your career

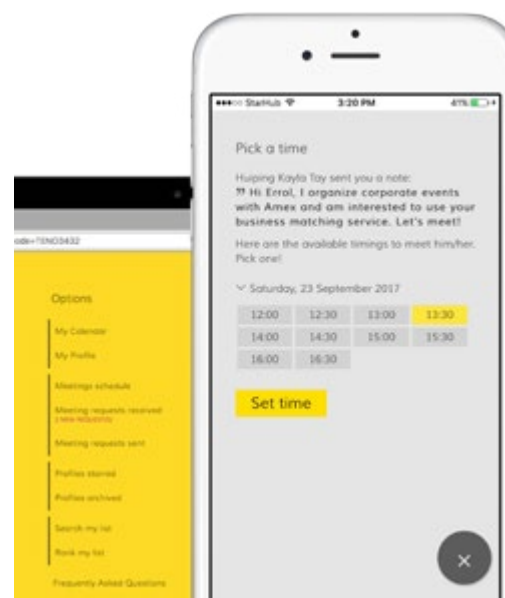

HOW WILL THIS PLATFORM BENEFIT ME?

- Rank other participants in accordance to their relevance to you
- You will have your own Concierge who will provide quick and timely assistance
- The platform is accessed with a click from your email (no downloads needed)

HOW DOES THIS PLATFORM WORK?

- Receive an invitation email with a personalised link before the event
- Review profiles and schedule meetings with participants who interest you

Jublia

Early Bird until 10 February 2017	1995 USD	
Standard Rate	2295 USD	
Documentation only	495 USD	

TERMS AND CONDITIONS

- The conference fee is inclusive of Conference documentation, entry to all conference sessions, lunches, refreshments and admission to all social networking events.
- International Research Networks Ltd. (IRN) requires full payment within 5 days of making a booking.
- Substitutions can be made at no extra charge up to 2 days before the event. Cancellations received in writing more than 7 days before the event will receive a full credit voucher. Credit vouchers cannot be issued for cancellations made less than 7 days before the event. Credit vouchers may be used for payment towards any future IRN event within the next 18 months.
- Upon signing this sales contract the customer commits to make payment in full. If the customer wishes to make a cancellation before payment has been made, the customer is still obliged to make payment in full, and will in turn receive a credit note of the equivalent price which will be applicable for 18 months for any IRN event, summit, conference or workshop.
- The customer agrees to make payment in full and the net amount must be received by IRN – any withholding tax or any other taxes are to be borne by the customer.
- IRN will make every reasonable effort to adhere to the conference package, but reserves the right to change date, location, content, speakers or topics if necessary. Any communication concerning the event shall not form part of the contract. If the event is cancelled for any reason the client shall receive a full credit voucher.
- The customer is wholly responsible for booking and paying for all travel, accommodation and other services associated with attendance at an event. Under no circumstances shall IRN be liable for any expenses incurred by the customer, even if the event is cancelled, postponed or modified in any way. It is agreed that the customer will only book such services where the customer has the right and ability to cancel these without cost or penalty and retains and accepts full responsibility to do so.
- IRN shall have no liability whatsoever for any indirect costs or expenses or any consequential losses howsoever incurred by the customer in any circumstances including for example, loss of profits, lost revenues, lost business opportunity, lost goodwill.
- IRN acts as an organiser and co-ordinator of the event and will sub-contract all presentation duties and all course materials and accepts no liability for the acts or commissions of its sub-contractors or for any aspect of the information, views or data presented at any event.
- In cases of late payment beyond 30 days, the client agrees that statutory interest will be charged on the outstanding balance. Statutory interest is due at 8% plus the Bank of England base rate.
- In cases where the customer registers at a reduced 'early booking' rate, should they not make payment before the expiration of the early booking rate, they will be obliged to pay the higher applicable later booking rate.
- Should legal enforcement be required, the client agrees that they will be liable for IRN's legal fees and debt recovery costs should the court find in IRN's favour. This is applicable to all legal proceedings including the small claims track.
- Events will be located within suitable conference venues in hotels, conference halls etc. IRN will use its reasonable endeavours to ensure that such premises are suitable and appropriate for such events but shall have no liability for accidents, inconvenience, theft, loss, damage, non-availability of facilities, or any other difficulty or loss at such event where this is beyond the reasonable control of IRN.
- Data Protection. The customer agrees that some data concerning the customer will be included within the delegate list. This list will be made available to selected third parties involved in the conference. Please advise IRN if you do not wish for your data to be included in that list.
- Force majeure. Under no circumstances shall IRN have any liability for any act, loss, damage, expense, mistake, omission or event which is outside its reasonable control.
- Severability. If any term is held to be invalid or unenforceable then that shall not prevent the remainder of this agreement from remaining valid.
- Governing law. This agreement shall be governed by the courts of England.
