PEOPLE'S GOVERNMENT

CALL FOR  
ABSTRACTS  
**NOW OPEN**

SUBMISSION DEADLINE  
**24 APRIL 2018**

[lng2019.com](http://lng2019.com)

The **19th International Conference & Exhibition on Liquefied Natural Gas (LNG2019)**, presented by the International Gas Union (IGU), Gas Technology Institute (GTI) and the International Institute of Refrigeration (IIR), is the only LNG event **conducted by the industry for the industry**.

In April 2019 Shanghai will host LNG2019, supported by the **Shanghai Municipal People's Government** and hosted by the **China LNG Association, China Gas Society, The Chinese Association of Refrigeration** and the **China Gas Association**.

This triennial event is the pre-eminent forum for the LNG industry and covers all aspects of the LNG chain. China is the world's fastest growing LNG market, and Shanghai is expected to attract 11,000 attendees from 550 organisations.

## KEY DATES

**24 April 2018**

Deadline for submission  
of Abstracts

**27 June 2018**

Early bird registration opens

**30 July 2018**

Author notification

**1 March 2019**

Deadline for submissions  
of final papers

## PAPER SESSIONS

These sessions will focus on the most current global industry developments from the entire LNG value chain.

Speakers will present formal presentations on the latest strategic, commercial and technical topics as well as giving insights into best practices.

## RESEARCH & INNOVATION SHOWCASE

Formerly known as the Poster Session, this is a unique and dynamic session specialising in the LNG industry's latest technical developments. Authors will present their findings via presentation, followed by an opportunity for questions and answers from the audience.

Author's digital poster displays will also be available for delegates to view throughout the week.

**240+**  
SPEAKERS

**11,000+**  
ATTENDEES

**ENTIRE LNG VALUE  
CHAIN REPRESENTED**

**HIGH-LEVEL  
NETWORKING**

## LNG FOR A SUSTAINABLE ENERGY FUTURE

The natural gas industry strives to play an important role in the rising global demand for reliable and cleaner sources of energy. LNG2019 aims to highlight and discuss how the industry can adapt to the changing landscape and play a major role in creating a sustainable energy future.

## CALL FOR ABSTRACTS – NOW OPEN!

The Call for Abstracts is offered to industry experts worldwide. Authors are invited to submit abstracts relating to topics defined by the LNG2019 Programme Committee. If selected, you will have an opportunity to be part of the official conference programme, presenting in front of a global audience.

### PAPER SESSION TOPICS

- LNG Markets: Supply, Demand, Contracting Strategies, Competing Energy Sources
- Energy and Emissions Policies – Impact on LNG Demand
- LNG Projects (Pre-Startup)
- Floating Liquefaction, Regasification and LNG-fueled Power
- Advances in Technology Across the LNG Value Chain
- LNG Shipping, Storage, and Transportation
- LNG Facility Operations Excellence, Capability Management and Process Safety
- Advances in Project Development, Financing, Policy, Advocacy and Sustainability

### RESEARCH & INNOVATION SHOWCASE TOPICS

- Process Technology
- Machinery and Equipment
- Instrumentation, Controls and Automation
- Modelling and Optimisation
- Application of Information Technology Systems in:
  - a. Training
  - b. Safety and Environmental
  - c. Logistics
- Other potential breakthrough developments

# EXHIBITION & SPONSORSHIP

The LNG2019 exhibition will host more than 300 exhibitors covering the entire spectrum of the LNG industry. Exhibitors can look forward to meeting thousands of trade visitors all looking for new products and suppliers. Personalised sponsorship opportunities are also available to position your organisation as a market leader.

LNG2019 will feature a collection of specialist pavilions designed to promote specific supplier segments of the industry, helping visitors working in your sector to easily locate you, including:

- **Natural Gas Vehicles (NGV) Pavilion** – The latest gas technologies and innovative solutions for sustainable and efficient transport across road, off-road and marine applications.
- **Marine Technology Pavilion** – Specialists in shipping and marine engineering, LNG bunkering and refuelling, shipbuilding, LNG facilities and infrastructure, gas processing, FLNG, FSRU, CNG, liquefaction, propulsion systems and marine engines, repairs, logistics, ports and more.

**30,000<sub>m</sub><sup>2</sup>**  
EXHIBITION

**300+**  
EXHIBITORS

**80+**  
COUNTRIES

**550+**  
ORGANISATIONS
